Monthly Cleaning Routine

Daily:

- Morning: Empty dishwasher, put away load of laundry.
- Evening: As soon as you arrive home, put in a load of laundry. After dinner, refill dishwasher, put clothes in dryer and pick up loose items around the house. Don't leave anything out of its designated place.

Weekly:

- Change sheets on all of the beds.
- Clean bathrooms.

Week 1 & 3:

- Dust and vacuum every room.

Week 2 & 4:

- Sweep & mop (don't forget to sweep off your porch or carport, especially during the fall months).

Choose one item each week in the fall and spring (or tackle it all in one day):

Deep clean

- Windows
- Stove and refrigerator
- Curtains and furniture
- Closets ([here's a great video on how to declutter your closet!](#))

****Granted, it would be great if you could do all of these tasks weekly, but if you find yourself short on time, try to complete the tasks according to this schedule. By doing these chores for a few minutes here and there during the week, you can save your weekends for all of the fun activities!**

By completing these simple tasks weekly, you'll always come home to and wake up to a clean home.
